What is Emsi Data?

Emsi data is a hybrid dataset derived from official government sources such as the US Census Bureau, Bureau of Economic Analysis, and Bureau of Labor Statistics. Leveraging the unique strengths of each source, our data modeling team creates an authoritative dataset that captures more than 99% of all workers in the United States. This core offering is then enriched with data from online social profiles, resumés, and job postings to give you a complete view of the workforce.

Emsi data is frequently cited in major publications such as *The Atlantic*, *Forbes*, *Harvard Business Review*, *The New York Times*, *The Wall Street Journal*, and *USA Today*.

Report Parameters

1 Occupation

51-4120 Welding, Soldering, and Brazing Workers

5 Counties

6001 Alameda County, CA

6013 Contra Costa County, CA

6075 San Francisco County, CA

6077 San Joaquin County, CA

6085 Santa Clara County, CA

Class of Worker

QCEW Employees, Non-QCEW Employees, and Self-Employed

The information in this report pertains to the chosen occupation and geographical areas.

Executive Summary

Light Job Posting Demand Over a Thin Supply of Regional Jobs

Jobs (2020)

Your area is not a hotspot for this kind of job. The national average for an area this size is 10,153* employees, while there are 5,075 here.

Compensation

Earnings are high in your area. The national median salary for Welding, Soldering, and Brazing Workers is \$43,612, compared to \$51,637 here.

Job Posting Demand

Job posting activity is low in your area. The national average for an area this size is 287* job postings/mo, while there are 132 here.

*National average values are derived by taking the national value for Welding, Soldering, and Brazing Workers and scaling it down to account for the difference in overall workforce size between the nation and your area. In other words, the values represent the national average adjusted for region size.

Jobs

Regional Employment Is Lower Than the National Average

An average area of this size typically has 10,153* jobs, while there are 5,075 here. This lower than average supply of jobs may make it more difficult for workers in this field to find employment in your area.

Region	2020 Jobs	2025 Jobs	Change	% Change
● 5 California Counties	5,075	5,411	336	6.6%
● National Average	10,153	10,556	403	4.0%
● California	36,274	37,057	783	2.2%

*National average values are derived by taking the national value for Welding, Soldering, and Brazing Workers and scaling it down to account for the difference in overall workforce size between the nation and your area. In other words, the values represent the national average adjusted for region size.

Regional Breakdown

County	2020 Jobs
Alameda County, CA	1,820
Santa Clara County, CA	1,528
San Joaquin County, CA	975
Contra Costa County, CA	425
San Francisco County, CA	327

Most Jobs are Found in the Architectural and Structural Metals Manufacturing Industry Sector

Industry	% of Occupation in Industry (2020)
Architectural and Structural Metals Manufacturing	13.7%
Industrial Machinery Manufacturing	12.4%
Motor Vehicle Manufacturing	7.1%
Commercial and Industrial Machinery and Equipment (except Automotive and Electronic) Repair and Maintenance	6.7%
Machine Shops; Turned Product; and Screw, Nut, and Bolt Manufacturing	4.9%
Semiconductor and Other Electronic Component Manufacturing	4.9%
Other	50.3%

Compensation

Regional Compensation Is 18% Higher Than National Compensation

For Welding, Soldering, and Brazing Workers, the 2020 median wage in your area is \$51,637, while the national median wage is \$43,612.

Job Posting Activity

1,095 Unique Job Postings

The number of unique postings for this job from Jan 2020 to Aug 2021.

267 Employers Competing

All employers in the region who posted for this job from Jan 2020 to Aug 2021.

30 Day Median Duration

Posting duration is 4 days shorter than what's typical in the region.

Occupation	Avg Monthly Postings (Jan 2020 - Aug 2021)	Avg Monthly Hires (Jan 2020 - Aug 2021)
Welding, Soldering, and Brazing Workers	132	203

*A hire is reported by the Quarterly Workforce Indicators when an individual's Social Security Number appears on a company's payroll and was not there the quarter before. Emsi hires are calculated using a combination of Emsi jobs data, information on separation rates from the Bureau of Labor Statistics (BLS), and industry-based hires data from the Census Bureau.

Appendix A

Welding, Soldering, and Brazing Workers in 5 California Counties

Appendix B - Data Sources and Calculations

Location Quotient

Location quotient (LQ) is a way of quantifying how concentrated a particular industry, cluster, occupation, or demographic group is in a region as compared to the nation. It can reveal what makes a particular region unique in comparison to the national average.

Occupation Data

Emsi occupation employment data are based on final Emsi industry data and final Emsi staffing patterns. Wage estimates are based on Occupational Employment Statistics (QCEW and Non-QCEW Employees classes of worker) and the American Community Survey (Self-Employed and Extended Proprietors). Occupational wage estimates are also affected by county-level Emsi earnings by industry.

Staffing Patterns Data

The staffing pattern data in this report are compiled from several sources using a specialized process. For QCEW and Non-QCEW Employees classes of worker, sources include Occupational Employment Statistics, the National Industry-Occupation Employment Matrix, and the American Community Survey. For the Self-Employed and Extended Proprietors classes of worker, the primary source is the American Community Survey, with a small amount of information from Occupational Employment Statistics.

Cost of Living Data

Emsi's cost of living data is based on the Cost of Living Index published by the Council for Community and Economic Research (C2ER).

Emsi Job Postings

Job postings are collected from various sources and processed/enriched to provide information such as standardized company name, occupation, skills, and geography.

Institution Data

The institution data in this report is taken directly from the national IPEDS database published by the U.S. Department of Education's National Center for Education Statistics.
