8. May – Throughout the Month	Jennie Graham will continue to work on the updates and changes needed for the online environment, labs and other materials in the Math Emporium Kristy will work on the revising the corequisite support courses for the transfer level math classes (Math 30: College Algebra for STEM, Math 39: Trigonometry, Math 40: Statistics and Probability, Math 47: Math for Liberal Arts) and resubmitted them to the Curriculum Committee for review. Marketing and coordinating for the Fall Math Jam registration will be started.

Challenges:

There were no challenges in the current month

## Planned Activities pertaining to current month

1. June 1 – 30th

### **There are No planned activities during the summer 2018**

Our HSI Gateway to STEM Success Program activities are driven by our cohort which includes tutoring, mentorship, math jam, and math emporium. All of the mentioned activities only take place during the regular spring and fall semesters. Thus, we have no planned activities until September 2018.

Challenges:

No challenges are expected this month.

Highlights:

None.
