Distance Education Student Survey - Fall 2022

Q1. Why did you choose to enroll in a Distance Education (DE) course? Check all that apply.

Answer Choices	Responses	
COVID	30.54%	102
Flexibility/Convenience	84.43%	282
Unable to come to campus	34.13%	114
Prefer to learn via technology	29.34%	98
An on-campus class was not available	21.86%	73
To be able to enroll in more units/complete education faster	25.45%	85
Felt a distance education class would be easier than an on-campus class	25.45%	85
Heard it was a good class	11.08%	37
Meet requirements for associate degree	26.65%	89
Meet requirements for transfer	38.02%	127
Meet requirements for vocational certificate	2.69%	9
Improve my job skills/expand my job opportunities	13.47%	45
Personal interest in the subject	17.66%	59
Disability	4.79%	16
Success with a previous distance education class	34.43%	115
Other, please specify	7.49%	25

Skipped		**1**

Respondent ID	Response Date	er, please spe	Tags
	Dec 14 2022 08	Had to take last class on line due to illness in class	
	Dec 11 2022 09	Learning in an environment that I'm comfortable has improved my academic performance and confidence significantly.	
	Dec 11 2022 08	Work full time with an hour commute one way	
	Dec 11 2022 12	The class I wanted was not available at a time I could come	
	Dec 10 2022 10	I work over 60hours a week	
	Dec 10 2022 07	I don't like going to campus and sitting in a classroom	
	Dec 08 2022 07	best meeting time for me	
	Dec 08 2022 02	I care for my elderly mother & am unable to attend an in person class.	
	Dec 07 2022 05	Wanted in person not online class	
	Dec 07 2022 02	I am not allowed to be on campus, so I am forced to take distance classes.	
	Dec 07 2022 06	Working	
	Dec 07 2022 05	I really enjoy the option and convenience of DE	
	Dec 06 2022 07	Distance classes are easier and cheaper due to not having to drive into school and the subsequent savings in gasoline costs, time in car, traffic-associated stress, etc.	
	Dec 06 2022 01	Works with work schedule	
	Dec 06 2022 01	I did not want to take Covid vaccine	
	Dec 05 2022 08	It was easier to take online classes and work at the same time	
	Dec 05 2022 06	I am a mother with kids and need flexibility	
	Dec 05 2022 06	I have children and no daycare.	
	Dec 05 2022 05	I work full time and can not come into the campus.	
	Dec 05 2022 03	Save on gas	
	Dec 05 2022 03	Save gas	
	Dec 05 2022 01	Working at a daycare	
	Dec 05 2022 12	vaccine required	
	Dec 05 2022 11	It does not require a commute so it is more economically friendly.	
	Dec 05 2022 11	I am In a hyflex class and chose to finish the course online	

Q2. How many hours per week do you work this semester?

Answer Choices	Responses	
1-20 per week	39.34%	131
21-40 hours per week	32.13%	107
More than 40 hours per week	11.11%	37
None	17.42%	58
Answered		**333**
Skipped		**2**

Q3. Are the majority of your Distance Education (DE) classes Synchronous (live online, in real time), Asynchronous (not live online), Both (a combination of live and not live), Hybrid (on campus and online), or HyFlex (choice of live, not live, and on-campus)?

Answer Choices	Responses	
Synchronous	8.70%	28
Asynchronous	57.14%	184
Both	19.57%	63
Hybrid	9.63%	31
HyFlex	4.97%	16
Answered		**322**
Skipped		**13**

Q4. Rank the above types of classes in terms of your preferred method of learning.

Q12. If you are a disabled student and want to comment on the effectiveness of accommodations, do so here.

Answered	**18**
Skipped	**317**

Respondent ID	Response Date	Responses	Tags
	Dec 11 2022 03	I'd prefer canvas rids the test timer completely so those of us with anxiety aren't pressured so severely on test that has no time requirement.	
	Dec 11 2022 02	N/A	
	Dec 11 2022 02	The instructors I've had this semester were very accommodating, understanding, and supportive and were willing to adjust to fit my special needs.	
	Dec 10 2022 03	N/A.	
	Dec 10 2022 02	N/A	
	Dec 09 2022 10	Amanda is great	
	Dec 09 2022 10	No	
	Dec 09 2022 08	thank you, so helpful	
	Dec 07 2022 08	For me, online classes without video are extremely difficult. I usually prefer online classes, but having pre recorded lecture videos (in 20-30 maximum length) helped me absorb the information much better than only reading text.	
	Dec 07 2022 11	Respond to emails, follow-up	
	Dec 06 2022 02	Kurzweil can often mispronounce words, and completely speak sentences/paragraphs as gibberish, thus losing a whole section of the texts.	
	Dec 06 2022 12	I have ADHD it is hard to focus by myself online when I barely have anyone to talk to, I am bored, I can't remember things, I just wish that taking classes online wasn't the only choice! I am really bad at science but all the in person science courses are too hard for me so I have to take asynch courses that I end up falling behind in. The classes that I am interested in are also online when I would rather have in person discussions and projects I can speak my mind in. What would help with distance learning is making sure it isn't the only option.	
	Dec 06 2022 11	I never really had any issues with what the instructor for my hybrid class gave me as I had plenty of material to use, and if I missed something I could just go back in a video. I also never really used my accommodations in any of my hybrid classes anyways so I don't think I can comment on the effectiveness of the accommodations in my hybrid classes.	
	Dec 05 2022 01	Need more time for tutoring after 7 pm	
	Dec 05 2022 12	Everything is going quite well	
	Dec 05 2022 11	N/A	
	Dec 05 2022 11	LPC was kind enough to give me a standing desk because of my lower back injury which prevents me from sitting in a chair. It's proven highly beneficial and allowed me to succeed in class.	
	Dec 05 2022 11	I have accommodations but have never used them	

Q13. Please measure your ability to perform the tasks below. Use the following levels: Do Not Use or Unfamiliar = I haven't tried/don't know about it. Novice = I rarely do this well/am just beginning. Intermediate = I sometimes do this well. Proficient = I do this well enough. Expert = I do this flawlessly.

	Do Not Use or Unfamiliar		Novice		Intermediate		Proficient		Expert		Total	Weighted Average
Interact with the instructor online	5.96%	14	5.11%	12	14.89%	35	45.96%	108	28.09%	66	235	3.85

Q14. Please add any other pertinent comments about distance education at LPC:

Respondent ID	Response Date	Responses	Tags
	Dec 11 2022 03	This is helping me approach my educational goals that I thought were lost a long time ago due to social anxiety. I am so beyond thankful for distance learning giving me the confidence to return to campus occasionally.	
	Dec 11 2022 02	Distance education has been so helpful for me who has many obligations outside of school and I hope to continue having the option to use it in the future.	
	Dec 11 2022 12	My synchronous teacher's ability to use Zoom and mimic an interactive classroom experience made all the difference. I was skeptical about online learning until I took her course.	
	Dec 11 2022 09	I really appreciate that LPC has a variety of classes available as distance education. I also appreciate the ability to take hy-flex classes as I don't feel comfortable being in a classroom with Covid still being a problem.	
	Dec 10 2022 03	N/A.	
	Dec 09 2022 10	Online instructors need to post videos of lectures. I had to you tube my math and use Turtor at las positas. Tried to get help on office hours Instructors was very hands off.	
	Dec 09 2022 10	I would like to see more high-flex classes in the math/science departments. Some of the classes can easily be done online.	
	Dec 09 2022 02	online class would be so much more better only if the teachers would respond to their emails, and make short videos giving us a summary of what they are talking about rather than criptic messages that half the class doesnt understand	
	Dec 09 2022 10	very Satisfied.	
	Dec 09 2022 08	thank you	
	Dec 08 2022 11	I like distance education, but I feel like I am forced to take online classes sometimes due to the lack on in person options. I love online classes, but I would appreciate better in person options in the future.	
	Dec 08 2022 10	Hyflex class is the most beneficial for me as a student who prefers in-person classes but due to disability cannot always attend. Full online courses work best for lighter classes. I was unable to enroll in many of the classes I wanted because they were asynchronous only.	
	Dec 08 2022 09	Online classes in my personal experience require me to do a lot more independent research, so I spend a lot more time than if I were in a classroom where I could get answers to questions as they come up.	
	Dec 08 2022 08	I work around 50 hours a week and went back to school this semester. I have quickly realized that I cannot commit to designated meeting times because my work schedule is constantly changing. I really appreciate the asynchronous courses, I would not be able to make school a possibility without them!	
	Dec 08 2022 05	My only criticism is that some instructors of asynchronous courses don't input grades for assignments that aren't auto-graded (such as quizzes) until the very end of the semester, so grades are not accurate the entirety of the semester and don't reflect our actual grades in the class. I feel that it's only fair for instructors to get grades back in a decent amount of time.	
	Dec 08 2022 03	Saves gas and time for someone who lives far and is also easier to manage with a job.	
	Dec 08 2022 11	Please make more classes online, therefore no reason to come to the campus for a lectures when they can easily be one online.	
	Dec 08 2022 09	What I find very objectionable is that I pay the same fees as in-person instruction yet I am not welcome on campus because I am not vaccinated. They changed their mind in the middle of the stream. Fall 2021 they allowed students on campus that were not vaccinated and they changed their minds and required it in spring of 2022. What changed? Nothing. In Fall of 2021 I was able to go into the library to get books for my assignments but NOT NOW. All the other businesses and stores in the county don't require vaccination but the colleges do. You can go to Chase Arena and see a basketball game and sit with thousands of other fans but oh nooo you can't come on campus. They keep hanging on the narrative that the unvaccinated are a threat but that isn't true and it has been proven that that narrative is false. I am forced to pay a healthcare fee even though I can't come on campus. They want it both ways. The colleges have a population of young healthy people and this shouldn't even be an issue but they keep hanging onto it.	
	Dec 08 2022 09	This is my first distance learning course at LPC. As the use of CANVAS is the same/similar as my prior classes on campus, it felt like a seamless transition. My instructor was excellent; very thorough with a clear communication style. Also, I was sooo appreciative of the later start date of Oct. as my own personal schedule changed just as I was about to add the classes that I had began attending at LPC. I am looking forward to summer school online classes (12 units) But in the fall, I hope to be able to attend a live class or two.	
	Dec 08 2022 07	I hate the discussion boards. A waste of time. How many weeks in a row do I need to say that I am not really having problems and I don't need help? I don't do them in spite of the hit to my grade.	
	Dec 08 2022 01	I like online classes more then in person classes	
	Dec 07 2022 07	I love the option to have asynchronous classes I have learned so much and been able to join office hours to get help. I also love the option to do hybrid because at times if i couldn't make it to campus because I live 30 mins away I was able to join for home and that way I do not miss class ever and I can even knock out homework right after rather than waiting to do it till I drive back home.	
	Dec 07 2022 06	I have a very hard time with depression and anxiety, and online classes have been absolutely detrimental to my ability to do well in class.	
	Dec 07 2022 06	Feed back from teachers in the rubric is very unclear and peer reviews . The discussions part of assignments and collaborations board isn't explained. Also the amount of storage given, was exceeded many times, and my assignments went in late due to errors codes not allowing the assignment to upload.	
	Dec 07 2022 05	The Class I took is an in-person not online class	
	Dec 07 2022 12	A lot of the time, each class assigns at least 3-4 assignments a week and it can get hard to keep up with all the work.	
	Dec 07 2022 11	This is a great school with fabulous instructors and support staff.	
	Dec 07 2022 11	N/a	
	Dec 07 2022 09	The ability to have DE classes as a whole has been very beneficial for someone with a disability (like me), and asynchronous work takes much stress off my shoulders.	
	Dec 07 2022 06	Good	
	Dec 07 2022 05	I really enjoy the option and benefits from DE. Thank you.	
	Dec 06 2022 11	Very impressed with how my first semester at LPC is going, especially with the distance classes.	
	Dec 06 2022 09	Hope there are more ED classes, especially the ESL class	
	Dec 06 2022 09	Online course instructors are of very uneven quality. The full time Chabot/LPC instructors are all fantastic. The adjunct faculty quality is a very unpredictable variable. You need to be more selective regarding instructor quality.	
	Dec 06 2022 07	I love it!!	
	Dec 06 2022 07	I think more classes should be offered in a distance-learning option, as there are so many benefits of this method of learning. Distance learning removes many of the common barriers to entry of traditional on-campus, in-person classes such as: lower overall costs (no gas/bus costs), less time required due to no travel time to school, increased convenience....the list goes on and on. Distance learning makes education available to a wider span of the population, which is a very good thing.	
	Dec 06 2022 02	Making sure the teachers know how to manage an online class. The teacher is capable to upload, delete, edit posts, responds to emails, keeps up with grading, and communicates with students. I love online classes but there have been teachers who don't how to manage an online class.	
	Dec 06 2022 12	I hope more instructors will return to in-persons classes on campus.	
	Dec 06 2022 10	As being a single parent and trying to go back to school and work a full time position . ON line services work well for me.	
	Dec 06 2022 10	Distance education allows for the most flexible course education method in terms of availabile access and punctuality.	
	Dec 06 2022 09	I think it could be great to have access to the syllabus before enrolling in a class to know that topics we are going to see during the semester	
	Dec 06 2022 12	There should be more synchronous and asynchronous courses available. Also, professors shouldn't use proctorio because it's really uncomfortable to have a camera watching you all the time. It's fine if you want to lock the screen, but having a camera watching you all the time feels like you're a kid who needs to be supervised at all times.	
	Dec 05 2022 09	I think it's important to have at least one DE course option for every subject. I also think there should be a page to show what classes need to be taken before if you are not eligible for a certain class.	
	Dec 05 2022 09	More Asynchronous classes.	
	Dec 05 2022 07	Online classes are much better for me, especially with my anxiety. Going to on-campus classes causes me distress so having an online option has helped my education grow so much easier.	
	Dec 05 2022 06	More office hours, especially in the Summer semester.	
	Dec 05 2022 06	I wish there were more genuine student-student interactions for distance learning	
	Dec 05 2022 05	I like it, some teachers are good, and some aren't, but that's the same for in-person and online. In general, it's very very useful and there should be more, especially because some people can't get to campus or the class would be more efficiently taken online rather than in person.	
	Dec 05 2022 05	Instructor vs student interaction is very badNot getting respond or feedback on time	
	Dec 05 2022 05	Was I supposed to fill in question 13? And this? Because it says to skip to question 17, but here is no #17...	
	Dec 05 2022 04	I enjoy online classes they are more flexible and also motivating to take classes even when you have a busy schedule. I really wish that there is more online classes that are flexible of my degree. I would prefer to take all my classes to get my degree.	
	Dec 05 2022 04	My only criticism would be that I'm not sure instructors are aware of how long it takes before FinAid is dispersed and often set up assignments that require the textbook or money (like projects that require materials) too early and then don't understand why a number of students can't do it	
	Dec 05 2022 03	Despite feeling burnt out from having to take a high number of course units at UCSB from winter quarter 2022 to summer quarter 2022, I wasn't able to make the most of the courses this semester but I am thankful that I was able to do well academically this semester. I'm thankful that some of the instructors were willing to help me through the academically rigorous content.	
	Dec 05 2022 03	As an older (senior citizen) returning student, this is an excellent learning experience. Class discussion and professor-led activities are as helpful as the additional online resources provided. One item to consider adding is an introductory video from each professor that includes a self-bio, educational experiences, and course goals. As well, a mid-point video with overall course review and expectations of the last half of the course would be beneficial to distant students.	
	Dec 05 2022 03	less homework's!	
	Dec 05 2022 03	I wish there were more online options	
	Dec 05 2022 02	I would like to request to have more online classes available more broadly. For example, I would like the option to take any Math and/or Computer Science course online.	
	Dec 05 2022 01	Perosn	
	Dec 05 2022 01	For the signing up for classes online, professors should have the day and times for them up by the end of the 3rd week after registration opens for next semester. Most of them don't.	
	Dec 05 2022 12	It's a really great option that I hope will stick around.	

Dec 05 2022 12 I don't believe the vaccine requirement is necessary anymore. Most of the people who want to be vaccinated have already gotten it, and now the ones who do not want to get it are not allowed on campus. I understand the scare for covid but back in 2021 I was allowed on campus I just had to wear a mask. Now it has switched to requiring the vaccine which is preventing me from finishing my AA in 2 semesters.
Dec 05 2022 12 N/A
Dec 05 2022 12 Distance education has become a staple in my life, it makes juggling school and work manageable. It also seems to have helped with my mental health. Overall, distance education is extremely helpful to me.
Dec 05 2022 12 CIS xx needed assistance because the instructor failed to meet basic requirements. Modules were not released and no communication on her part was made to encourage the success of the students.
Dec 05 2022 11 I don't think there is anything that needs to be improved, so far I am very satisfied.
Dec 05 2022 11 As a distance learning student, I would love to see that LPC offer more Hi/Flex classes on graphic Design would be great, still few graphic design classes are offered for Hi/Flex learning.
Dec 05 2022 11 Please continue distance education! It makes it so much easier for students like me who need to work and still be able to take classes. Especially since it's difficult for me to take any time off work to have to attend class. Labs I understand may need to be in person. But lectures really don't need to be in person. And I learn better from watching recorded videos at my own pace anyways.
Dec 05 2022 10 Distance education helps me to succeed in multiple areas, such as my education and my work opportunities.
Dec 05 2022 10 professor was absolutely terrible
